PROPOSED BOND ISSUE USELESS

City Engineer Will Present To Supervisors Estimate That Far Exceeds \$750,000

WATER AND SEWER WORKS REQUIRE LARGE AMOUNTS

Belt Highway Proposition Alone Would Take More Than \$1,-000,000 To Carry Out

That a bond issue of \$750,000 will not nearly met the needs of the road construction which faces the community it probably would exceed that. of Honolulu, is the opinion of City En- A Chinese Steward inger Collins, who is preparing a carefully studied report on the subject to he presented at the meeting of the super-visors this evening. Mr. Collins has made an examination of the problem as engineer and head of the road department, and he is preparing a statement which probably will be a basis for future policies of road construction and taxation. The figures he will present, showing the expense necessary to be incurred to carry out what ought to be done, probably will startle the public. Proposed Issue Wholly Inadequate

The proposed bond issue of \$750,000 would not cover what is needed for the waterworks and sewer departments alone." said Mr. Collins yesterday.

"The cost of doing what should be done on the streets of the city is far beyond any proposed bond issue. My report to the board temorrow evening will give the results of a study of the situation, and as it isn't complete yet cunnot go into details or give many But I can say that a million dollars would not cover the belt road proposition alone."

May Incite New Discussion Mr. Collins has spent weeks of work since he took the position of city engineer on the general road proposition, studying grades, character of roads material that has been used, repairs and other work. His report of conditions and of what is needed to bring about decent road conditions probably will put new impetus into the discussion of what Honolulu shall do to mend the road conditions which now exist.

In discussing the subject the city engineer did not express himself as either in favor of or against a bond issue. His report will be a result of a study of the road conditions and contain some suggestions of what should be done, with estimates

PROFESSOR PHELPS **GUEST OF YALE MEN**

Professor of 'Old Eli'-Is Entertained At Home of Governor Frear

William Lyon Phelps, Tampson professor of English literature at Yale University; editor, author and essayist, was the guest of honor at a dinner given by Walter F. Frear at his residence, "Arcadia," last night. Professor Phelps arrived in the Sierra yesterday to take part in the seventy-fifth anniversary celebration of Punahou Academy

The Yale Alumni Association of Hawaii welcomed its distinguished fellow alumnus at Governor Frear's home, held its annual meeting; re-elected officers and indulged in toasts and tales of the old college days. Professor Phelps' speech was entirely informal as was the evening's entertainment. The officers of the association for the

ensuing year are Walter F. Frear, president; J. P. Cooke, vice-president; R. B. Anderson, trensurer; H. P. Judd, secretary. The executive committee are M. Robertson, J. R. Galt and E. C. Webster.

COLONEL MICRAE'S SON GETS RAPID PROMOTION

News has been received here of the primotion of Donald Marion McRae, a son of Lieut. Col. James H. McRae, of department adjutant, Hawaiian Department, to the rank of major in the Canudian regiment in which he enlisted last to take part in the European war. The newly promoted Major is onby twenty-three years of age, and his futher is naturally proud of his quick promotion. Young McRae spent three years at West Point, a year at the Virginia Military Academy and was about to graduate from the Massachusetts Institute of Technology when he left to join the Canadian forces.

A Chinese steward brought ashere seve ral pieces of steerage baggage in itself somewhat suspicious, inasmuch as other steerage baggage had been sent to the immigration station when thirdclass passengers were discharged the morning. It is conjectured that this baggage was held back for the express purpose of getting the opium ashore with it.

Kaelua observed the Chinese watching the box, which attracted his at tention, and he called Frank Robello, customs inspector, who opened it, finding the seventy-five tins. Had package not been found it probably would have disappeared last night. Has Preight Mark

The box was from a Honolulu racker factory, and had made a round trip to the Orient. TO LEAVE ISLANDS

Seventy-five Will Go To Southern The Guard Policy Department, Mexican Border, For Duty

A field corps of seventy-five men, under Capt. Edwin E. Hickman of the United States," said Brig. Gen Signal Corps, Fort Shafter, has been ordered to leave here on the next transport, or perhaps in a liner, for service in the Southern department, on the Mexican border. By a special order issued yesterday, Maj. Edgar Russel, Signal Corps, was relieved of duty here and ordered to proceed on the truns-port of July 5 to report to the commanding general of the Southern deat Port Houston for duty. partment The major has had long experience in the country where the army is operating, and it is presumed that his special alue as an officer for service there is

the cause of his transfer at this time. Maj. Joseph B. Douglas, Coast Artillery Corps, in addition to his other duties, is assigned on temporary duty as department signal officer to take the place of Major Russel. Another change is that First Lieut, Frederick F. Black has been relieved from duty in the signal corps and transferred to the Twen

ty afth Infantry.

The field corps ordered to leave probably will take the next transport. However, should war be declared the war department would have power to take over for army use American merchant steamers, or to take such accommodations on them as it desired, and in that event the soldiers might leave earlier than July 5.

REFUSES FILIPINO HIS DECLARATION

National Guard Officers Point Out Where T. J. Ryan Went Beyond Law ...

FEDERAL COURT HERE HAS SETTLED QUESTION

tia Members To Become Citizens of United States

T. J. Ryan, Democratic war horse recently appointed clerk of Circuit Judge Quinn's court in Hilo, has refused to accept for filing in that court the declaration of intention of a Filipino, according to news received in Ho nolulu from the Big Island.

The refusal is going to be looked into, say local National Guard officers who point out that the bureau of naturalizations in Washington, D C., has held that a clerk of court must accept them, according to the following, re-cently sent out by the bureau in a letter of instructions:

"Clerks of courts exercising jurisdiction in naturalization proceedings will please disregard any request or direction heretofore made by any officer of this division or of the department, whereby such clerks are called upon to refuse to receive or file declarations of intention and petitions for naturalization by reason of any meaning hitherto given by the division of naturalization to the words, 'white persons and per sons of African nativity or descent, as used in Section 2169, R. S." estion Settled Here

In a case before Judge Clemons in the local federal court some months ago this jurist held that natives of the Philippines are eligible to become naturalised and the applicant in this particular case was subsequently sworn as a citi-

In the case of Halladjian, 174 Fed. 834, the court said: "That a clerk should refuse to file

petition for naturalization which con tains all proper allegations, because of the judgement of the color, race or other qualification of the petitioner, would violate the clerk's official duty If the petitioner persists the petition must be filed."

Such a situation came about in the application of De Guzman in the local federal court. De Guzman was refused the filing of his petition. He took the to Washington and the clerk matter was ordered to receive the petition. He was further instructed that the court, itself, would be the sole judge of the itself, would be the sole judge of the

ing that all the men of their command qualify, so that all question of their status as members of the organized militia of the country may be cleared

Recent advices from the division of militia affairs to the adjutant general's office set forth the desire of the Federal military authorities that Filipinos of the National Guard of Hawaii qualify immediately as prospective citizens. A letter from the chief, division of militia affairs, to the adjutant-general of Hawaii, dated Washington, May 11, referring to the inspection of new comands, outlines the policy of the war de partment toward Filipinos as follows:

War Department Wishes "It is noted that in all the above companies Filipinos are included in the personnel. In this connection attention is called to copy berewith of opin-ion of the judge advocate general of the Army, approved by the Secretary of War, concerning the eligibility of Filipinos for membership in the or ganized militia of Hawaii. The ruling given is considered to be binding, and conformity therewith should be brought

about by the time of the next annual armory inspection. '
The opinion above referred to is a lengthy statement, quoting authorities. showing under what circumstances Filipinos are eligible to be members of the National Guard of Hawaii. It closes as follows:

"5. Specially answering the ques-tions submitted, section 1 of the Militia Act applies to the Territory of Hawaii, and there may be Filipinos residing there, not Hawaiian born, who are eligible for membership in the organined militia of Hawaii by virtue of citizenship acquired under the Organic Act of April 30, 1900, but not other wise, unless the courts shall hold that they are eligible for admission to citi-

Declares That Washington Has Deliberately Invaded Mexico To Bring About War

Bad Faith On Part of President Wilson Hinted At and Other Insinuations Made

:4-,---(Concluded from Page 1) acted without due authority upon this

"The explanation given by the American government in regard to the crossing of troops at Columbus never has been satisfactory to the Mexican government," the communication says, "but the new invasion of our territory no longer is an isolated fact and tends to convince the Mexican government that something more

than a mere error is involved. The note denies that permission was ever given by the Mexican government for American troops to cross the border, but tells of a proposition that this be allowed, and a counter proposition that Mexican troops be allowed to enter American soil, should it be necessary to pursue maranders. As a result of declarations of intention presented to this proposition, Carranza says in his note, the United States government, through error and precipitation, thought that the good intention of the Mexican government was sufficient to authorize it to cross the frontier.

The note, states that the conferees exchanged data on the frontier situa tion and prepared a memorandum for respective governments, "General Scott declared that which the destruction and dispersion of the Villa band had been completed, and, therefore, the American government had decided to begin withdrawal of its troops under the promise that the Mexican government would endeavor to maintain an effective guard against new incursions."

The note recalls protestations of friendship by the American government toward Latin-American tries and particularly toward Mexico, citing President Wilson's declaration the United States did not intend that to interfere in the internal affairs of Mexico, nor in any way to impair its sovereignty.

These repeated protestations ap-peared, it said, to indicate "an honest purpose on the part of the governmen and people of the United States not to war on Mexico.

The Mexican government, however, the note continues, "regrets to remark that the acts of the American military authorities are in absolute conflict with the above statements, and is constrained to appeal to the President, the Department of State, the Senste and the American people to the end that yuce and for all time the true political tendency of the United States toward Mexico be defined."

Such a definition, it says, also is necessary that Latin-America may appreciate "the proper value of the protests of amity and fraternity which have been made to them during many years.

American force in Mexico, and its equipment with artillery is stated to "room for the supposition that the government's true intention is to keep there the troops it already has interned in Mexico, anticipating that it may make use of them for further operations.

There are in the note complaints about the detentions of shipments of supplies from New York, and the emargoes from time to time placed upon the shipments of arms across the bor

"The Mexican government and the Mexican people are anxious to know what they should expect," the note concludes, and they want to be sure that the expressions so many times made by the government of the United States are in keeping with a sincere desire for peace and a friendskip that should exist not only in declarations, but be crystalized in

Demands Troop Withdrawal

"The Mexican government, there-fore, formally invites the government of the United States to cause the situation of uncertainty between the two countries to cease, and to support its declarations and protests of amity with real and effective action which will convince the Mexican people of the sincerity of its purpose.

"This action in the present situation cannot be other than the imme-

diate withdrawal of the American troops now in Mexican territory."

War Seems Inevitable

At the same time, it is acknowledged that Carranza will have difficulty in withdrawing from his proposition without losing his leadership, and under these circumstances, there is a feeling that war is almost inevitable, for any new leader who might take his place would probably take an equally hostile attitude towards America.

Members of Congress were unanimous today in expressing approval of President Wilson's action in calling out the militia.

REPULSED BY FRENCH

(Associated Press by Federal Wireless.) PARIS, June 20.—The German attacks on Verdan continue, but without success. Yesterday further infantry assaults were made on the positions north of Hill No. 321. They were re-

A continued bombardment of Dead Man's Hill was kept up and infantry attacks there are expected. At the Avre and Oise positions the Jermans also made attacks by infantry and with hand grenades. They were repulsed with severe lesses, the French holding their positions.
